Naya Fytali

Software Engineer

@ contact@nayafyt.com Athens, Greece
nayafyt.com linkedin.com/in/nayafytali github.com/nayafyt

SKILLS

Programming Languages Java | Python | SQL | C#

Frameworks Spring Boot | .NET Core | React | Angular

Tools & Platforms Git | Docker | Jira | Confluence

EXPERIENCE

Associate Software Engineer | **Netcompany** – Athens, Greece — Jan 2025 – Present

Promoted from Junior Software Engineer, Jan 2026

- Develop and maintain enterprise web applications using Java and React
- Contribute to feature planning and translate business requirements into technical specifications
- Diagnose and resolve performance bottlenecks, improving system reliability and usability
- Collaborate cross-functionally with developers and testers to deliver on project milestones

Research Intern | **INSANE Group, NCSR Demokritos** – Athens, Greece — Nov 2025 – Present

- Generalized a Physics-Guided Neural Network pipeline into a framework-agnostic implementation, enabling new physics problems to be onboarded without modifying core logic
- Decoupled data preprocessing, model training, and evaluation stages to improve maintainability and reusability
- Technologies: Python, PyTorch, Physics-informed ML
